3. Introduction from the CEO of PPP.

JD thanked the community council for the warm invite to the meeting and for the opportunity to speak about the work going on at PPP. JD explained that the aim for the centre is to focus on restoring their services and to facilitate a way to support the community during current times, such as Care at Home (care for the elderly), HomeLink (criminal justice / supporting individuals with learning difficulties) and to facilitate something for

young people in the community who. Are disengaging from education. Other ideas included providing playgroups and / or after school clubs for children. An example of another idea was to provide a service for elderly individuals who are lonely, PPP are looking at ways of how they can tackle this issue which has proved to be an expanding situation in the community as well as a place for young people to go to after school to spend time, have fun and engage with other young people and to socialise etc. The nursery at PPP became accredited in 2020 and they aim to continue to be an exceptional nursery for the area. Different avenues for Telford's Café are also going to be explored. Zoom has been a way for people to communicate with one another during COVID, such as for elderly people being able to meet virtually for afternoon tea sessions. JC thanked JD for such an interesting and detailed report and expressed that if RBWCC could do anything to provide some information or details on the community then queries would be made welcome, even to meet again. AF1 expressed that it is good to see PPP being used by the TSB bank to provide a service to the local people again.

9. Wick Community Campus and Noss Primary School.

CM explained that the costs for the new path designs have been submitted to HC, however, it is looking doubtful that work will be carried out before summertime. Work commences on the next Thursday to repair the leak damage. CM confirmed that the path at the boulevard area was always part of the contract, HC then confirmed that they would complete work in that specific area during their own time.
